About

Product Designer with 6 years of experience designing fintech and investment products across B2B and B2C. Experienced in product evolution, 0→1 design, complex financial journeys, UX research, and design systems. Comfortable working across the full product lifecycle, from research and problem definition to interaction design, UI, prototyping, and handoff.

Experience

Azki Sarmayeh

Aug 2023 – Jul 2026

Product Designer

Hybrid · Full-time

- Designed and evolved a multi-service investment platform across mobile and desktop.
- Worked on complex financial experiences including gold trading, gold loans, investment products, deposits/withdrawals, and portfolio flows.
- Led design work across research, problem definition, information architecture, user flows, interaction design, UI, prototyping, and handoff.
- Redesigned the Gold experience, addressing trust, fee transparency, repeated verification, physical delivery, price alerts, and target-price orders.
- Designed a cross-platform Gold Loan journey, aligning web and mobile experiences across different states and constraints.
- Designed a gold pricing back office covering pricing sources, rules, calculations, system states, manual overrides, and operational edge cases.
- Conducted and synthesized user interviews, surveys, focus groups, usability tests, competitor analysis, analytics, and support feedback.
- Contributed to the evolution and adaptation of the product's design system across legacy and new product experiences.
- Collaborated closely with Product, Engineering, Operations, and Business teams throughout the product lifecycle.
- Contributed to product improvements associated with approximately 15× growth in active users and 20× growth in AUM and monthly transactions.

Daran

Aug 2020 – Aug 2023

Product Designer

On-site · Full-time

- Designed an early-stage investment platform across B2B and B2C experiences.
- Worked across investment advisory, risk assessment, proposals, appointments, educational experiences, and marketing pages.
- Designed and explored a Robo-Advisory concept as part of the product's evolution.
- Conducted user research and competitive analysis to identify product opportunities and usability issues.
- Worked closely with Product and Engineering in a small cross-functional team, taking ownership of product design across multiple areas.
